

Sullivan Preparatory Department

WORRIED?

NEED TO TALK?

GOT A PROBLEM?

- If you have something important to ask, talk to your teacher or another adult in your school
- All the teachers and other staff in the school are here to listen to you and to help you
- They will try their best to help you

If you are worried about telling things in confidence, tell the staff, they will understand. If they are concerned about your safety, they may need to share your information with others, but they will always tell you first.

If you are not sure about talking to teachers, you can telephone one of the two numbers below and not worry as the calls are FREE and the numbers will not show up on a telephone bill. They will help you work out what to do next!
